

Sam-E:

Can buy in drugstore, pharmacy, online.

Denosyl SD4 manufacturer recommends that dogs be dosed at the following rates:

Dogs less than 12 pounds:	one 90 mg tablet
Dogs between 12 and 25 pounds:	two 90 mg tablets
Dogs between 25 and 35 pounds:	one 225 mg tablet
Dogs between 35 and 65 pounds:	two 225 mg tablets
Dogs over 65 pounds:	three 225 mg tablets

Milk thistle:

Get one that is 80% sylimarin.

Dr. Dodds recommends using milk thistle in the doses listed below to help heal the liver along with reducing phenobarbital (according to your vet) and feeding the liver cleansing diet. You can buy this in health food stores. It comes in powder capsules or liquid drops. The drops are more potent.

The newsletter "Healthy Pets - Naturally" recommends that dogs be dosed at the following rates:

<i>Dog's size</i>	<i>Dose as % of adult human dose</i>
Less than 5 lbs	10%
5-10 lbs	15%
11-20 lbs	20%
21-40 lbs	30%
41-70 lbs	50%
71-100 lbs	75%
100 lbs	100%
